## Section III - Module II: DEST Practice Passage

Typing Practice Instruction: Type the passage below in 15 minutes. Focus on accuracy first, then speed. Do not use autocorrect while practicing.

Tier two preparation is different from tier one because the level of questions and the pressure of selection are higher. Candidates should focus on mathematical ability, reasoning, English comprehension, general awareness, and computer knowledge together. Data entry practice should not be ignored because it is qualifying in nature. A student who studies with discipline and reviews performance after every test can improve steadily before the final examination.
