Section III - Module II: DEST Practice Passage

Typing Practice Instruction: Type the passage below in 15 minutes. Focus on accuracy first, then speed. Do not use autocorrect while practicing.

Government exam preparation requires discipline and patience. Many candidates begin with high motivation but lose consistency after a few weeks. A simple timetable, limited study material, and repeated practice can make a major difference. Mock tests should be attempted like the real exam. After every test, candidates should check weak topics, revise formulas, and avoid repeating the same errors. Smart revision is as important as studying new chapters.
